## >\_ Experience

---

### FULL-STACK DEVELOPER @ TELUS DIGITAL, TORONTO, ON, CANADA

(1 Year, From 03/2018)

- Built RESTful services to support the online Mobility commerce flow on [telus.com](https://telus.com)
- Implemented new functionality and enabled new customer journeys
- Provided business and technical analysis for new features and projects
- Improved code testing by using data builders
- Improved service performance to help reach *under 3s* first-load time on the frontend
- Transitioned towards a new version of the API, redefining what standards and practices to use: Separation of Concerns, Domain Driven Design, HTTP response recording

### FULL-STACK DEVELOPER (VIE) @ ADNEOM, BRUSSELS, BELGIUM

(2 Years, From 09/2015 to 09/2017)

Adneom is a consultancy firm that seeks to provide full solutions to its clients (individuals or teams, best-practices, delivery, tools). [adneom.com](https://adneom.com)

- Experience working with clients, mainly start-ups
- Coached interns in javascript development
- Built RESTful services that integrate with databases and third party data providers
- Developed frontend and hybrid mobile applications
- Improved performance and security on both frontend and backend

Notable projects:

- **WeAreTennis:** [wearetennis.bnpparibas](https://wearetennis.bnpparibas)
- **Urbantz:** [urbantz.com](https://urbantz.com)
